Summary

A detail-oriented data analyst specializing in transforming raw data into actionable insights. Proficient in **Python**, **Pandas**, and **MySQL** for data manipulation and analysis. Experienced in creating meaningful visualizations to communicate complex findings to stakeholders.

Experience & Projects

Multilingual Mobile App Reviews Analysis

- **Project Description:** A comprehensive data analysis project using a real-world dataset to explore user ratings and feedback across various languages and demographics. The goal was to uncover key insights that could inform product development and marketing strategies.
- **Key Skills:** Python, Pandas, MySQL, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA).
- **Key Responsibilities:**
 - Cleaned and preprocessed a messy, multilingual dataset to ensure data integrity.
 - Used **Python** and **Pandas** to perform in-depth analysis of user ratings and trends.
 - Leveraged **Matplotlib** to create clear and compelling visualizations that told a story with data.
 - Extracted key findings and provided strategic recommendations for a global market.
- **Project Link:** [Link to your GitHub repository]

Skills

- **Programming & Tools:** Python, Pandas, MySQL, Microsoft Office, Jupyter Notebook, VS Code
- **Data Analysis:** Data Cleaning, Feature Engineering, Trend Analysis, Descriptive Statistics
- **Data Visualization:** Matplotlib, Seaborn
- **Certificates:**
 - Programming on Python (Meta)
 - Excel Skills for Business (Macquarie University)
- **Personal Skills:** Problem Solving, Flexibility, Teamwork, Responsibility
- **Languages:** **Intermediate** in English

Education

Damascus University | Damascus, Syria

- Faculty of Law, **Third Year**

Personal Information

- **Gender:** Male
- **Nationality:** Syrian
- **Date of Birth:** 16.08.2004
